

MAKE YOUR  
OWN 3D TB  
COVER

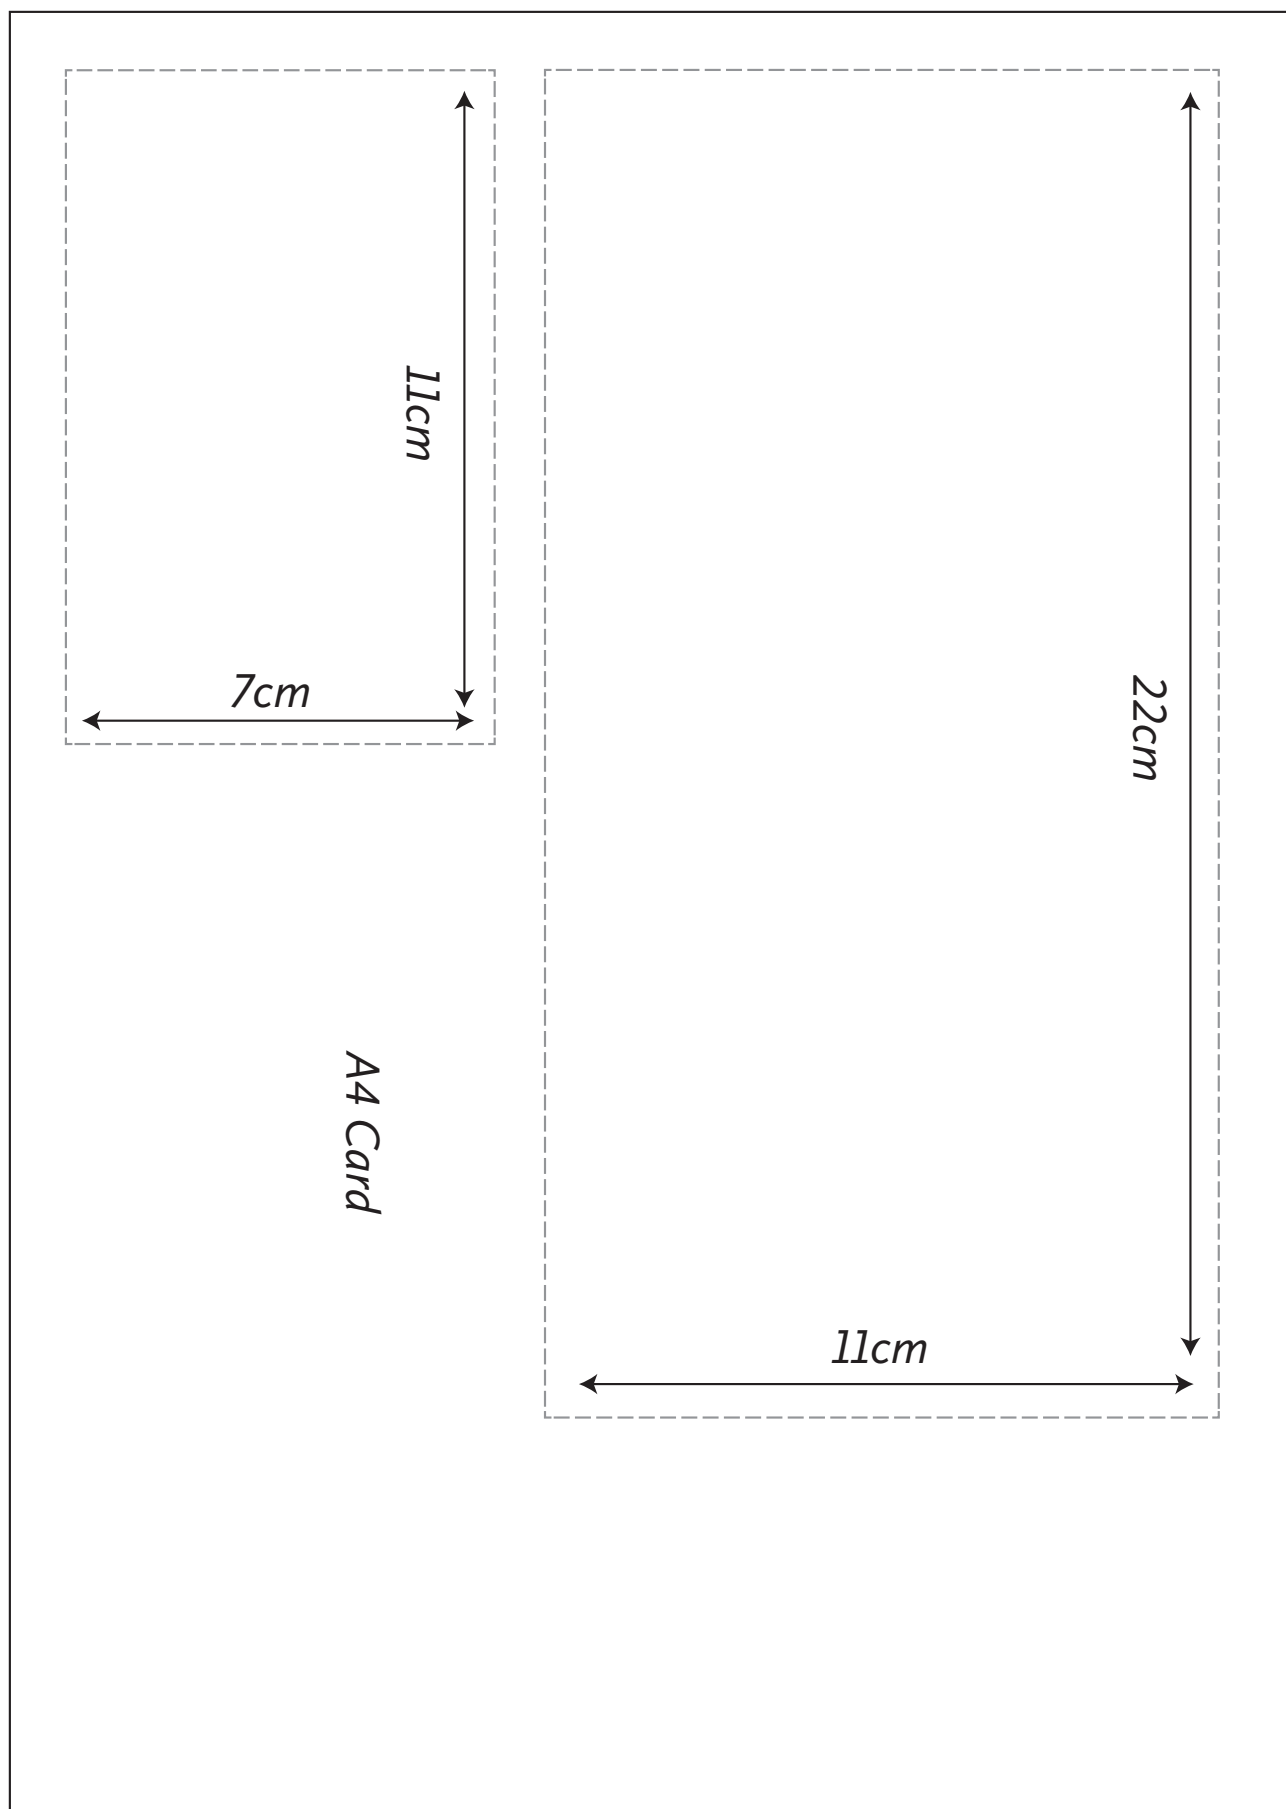

**1** Cut out the eight collage pieces from pages 66 and 67 *Teen Breathe* Issue 39 (Make sure you cut out the numbered purple tab as part of each piece)

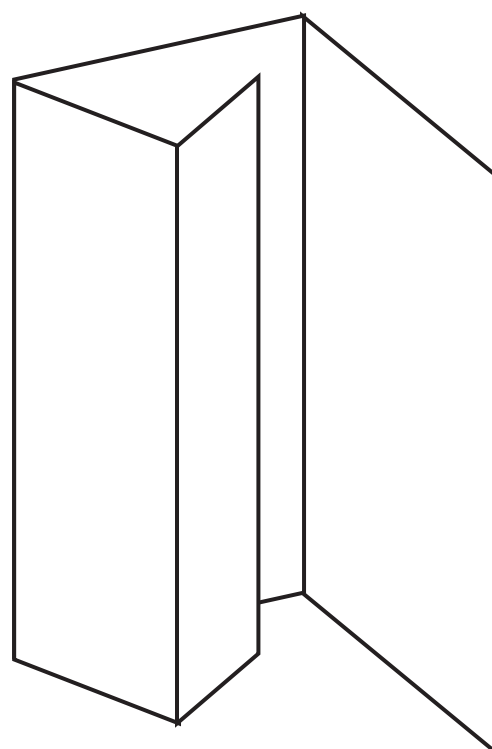

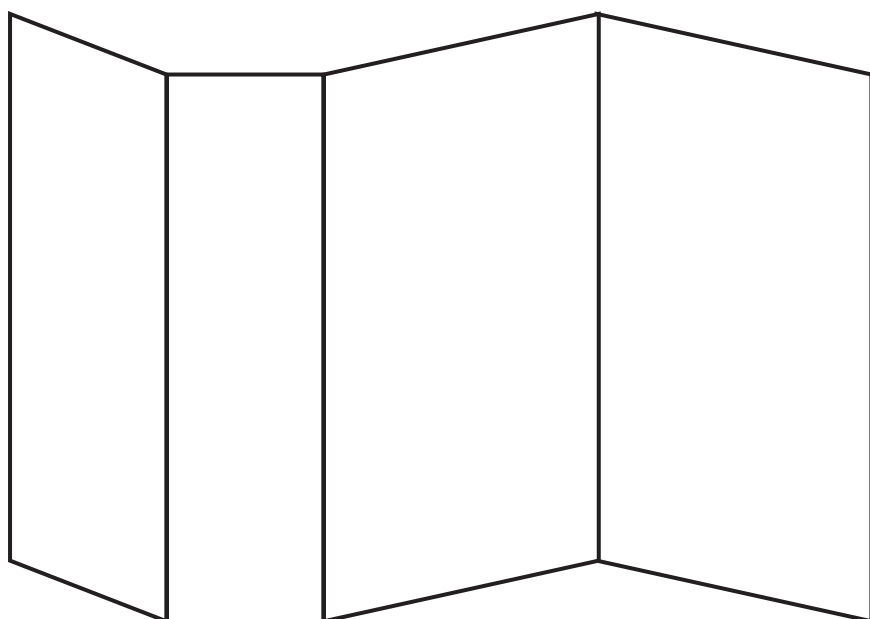

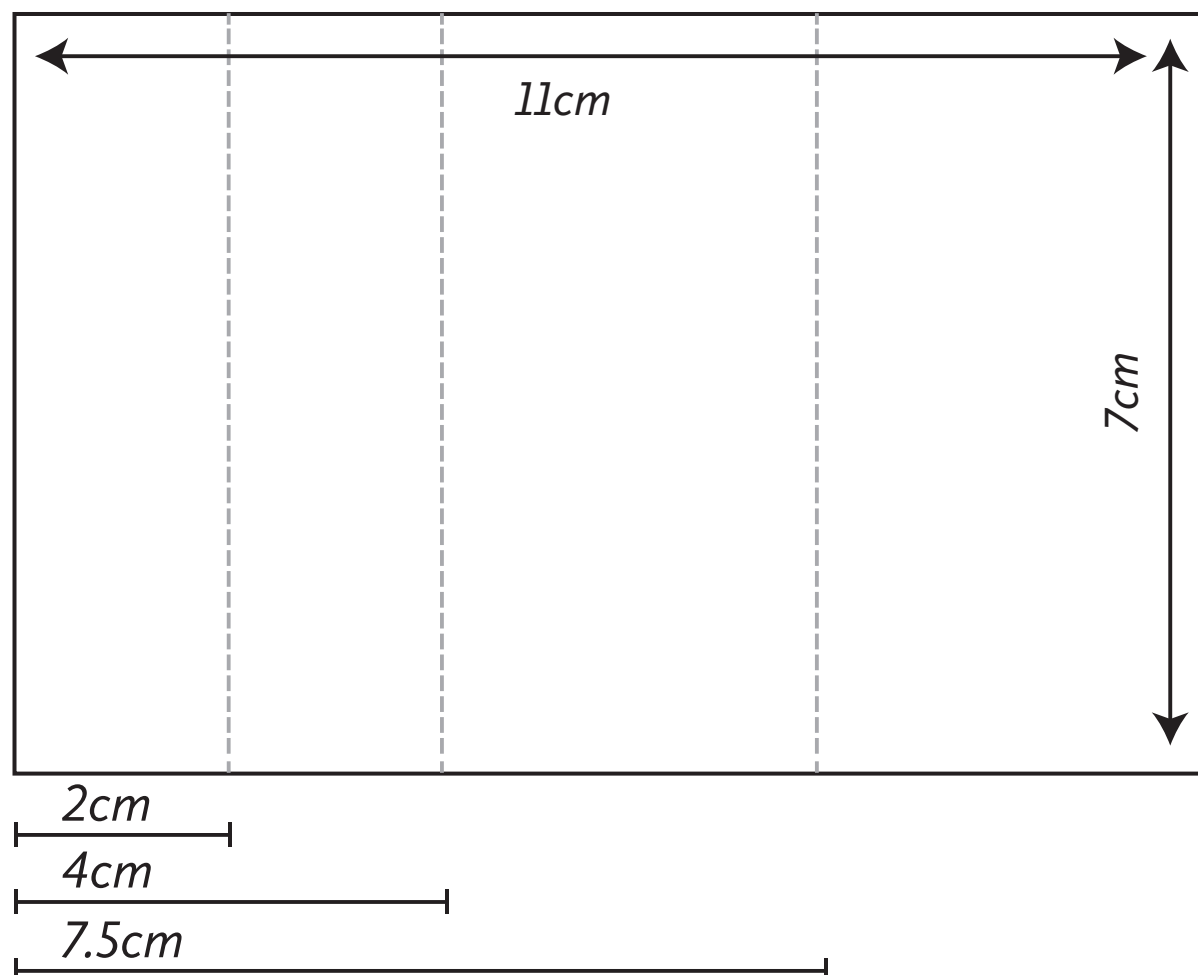

**2** On your piece of A4 card measure and mark a rectangle that is 22 cm x 11 cm and another rectangle that is 11 cm x 7 cm.

Cut these out.

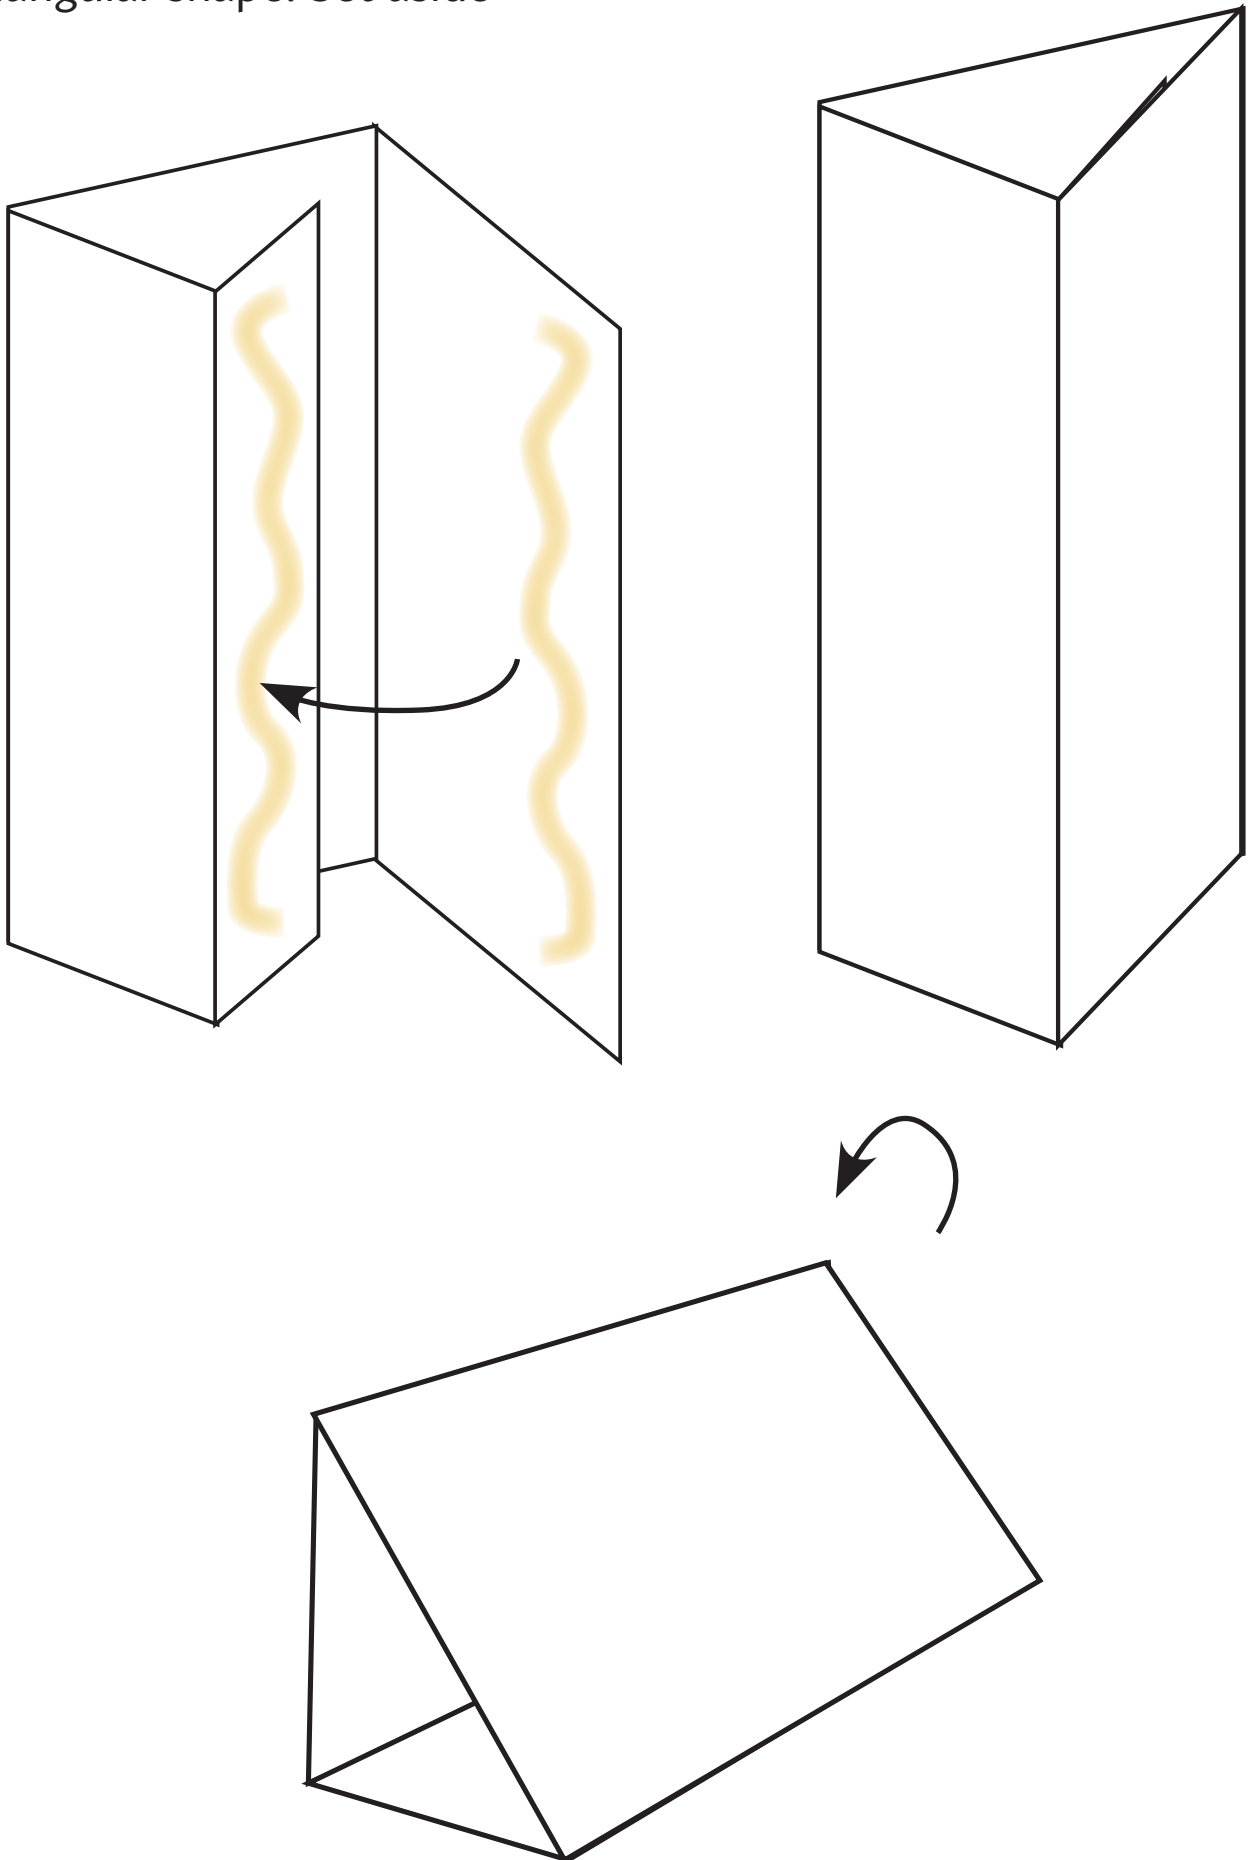

**3** On your smaller rectangle of card draw lines 2 cm, 4 cm, and 7.5 cm from the short edge.

Fold along these lines.

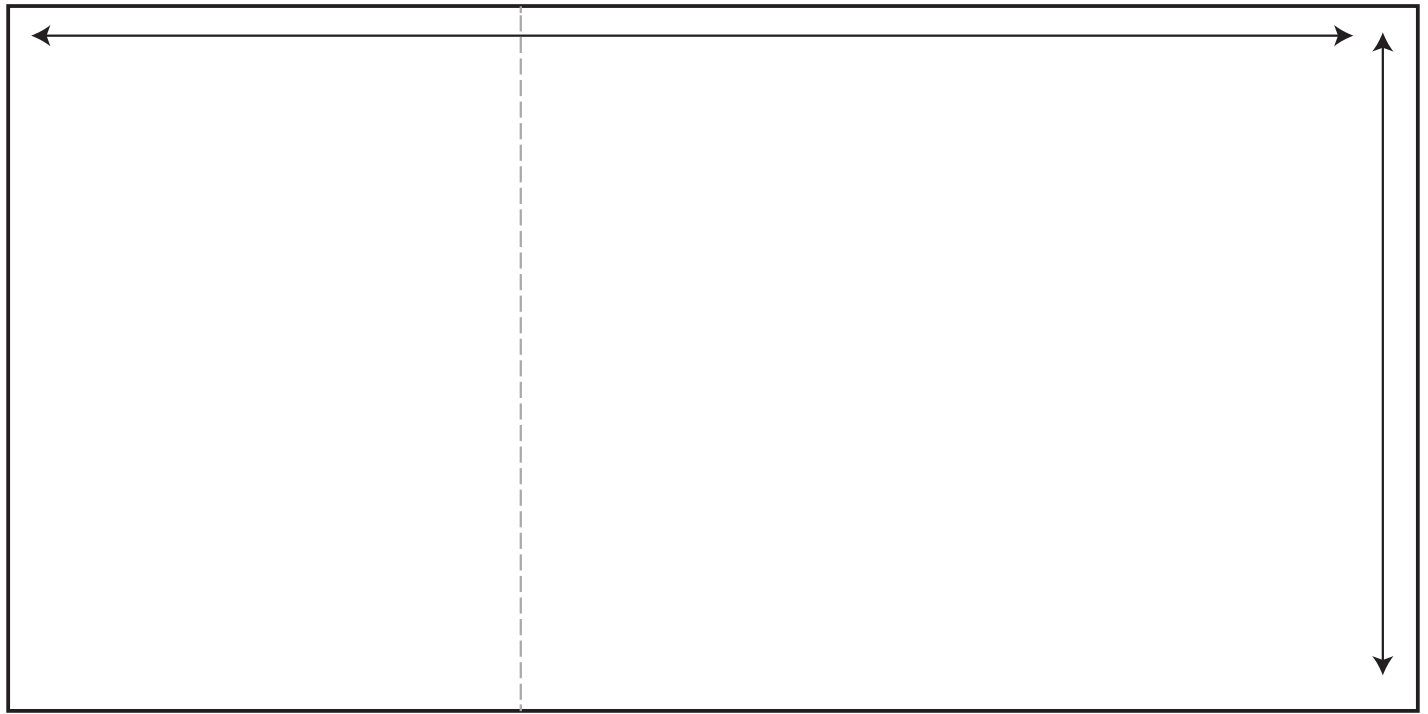

**4** Overlap the first 2 cm tab with the last tab and glue to create a triangular shape. Set aside

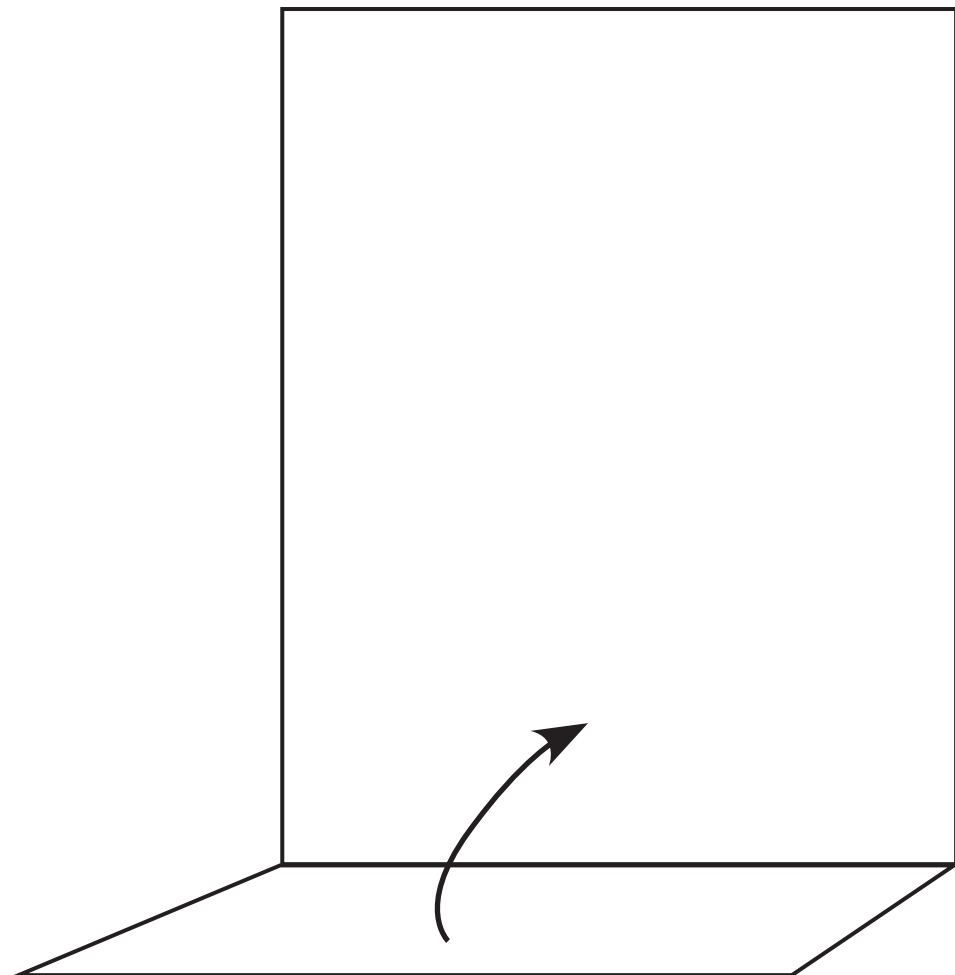

**5** On your larger rectangle of card measure 8 cm from the short edge and draw a line.

Fold and unfold along this line.

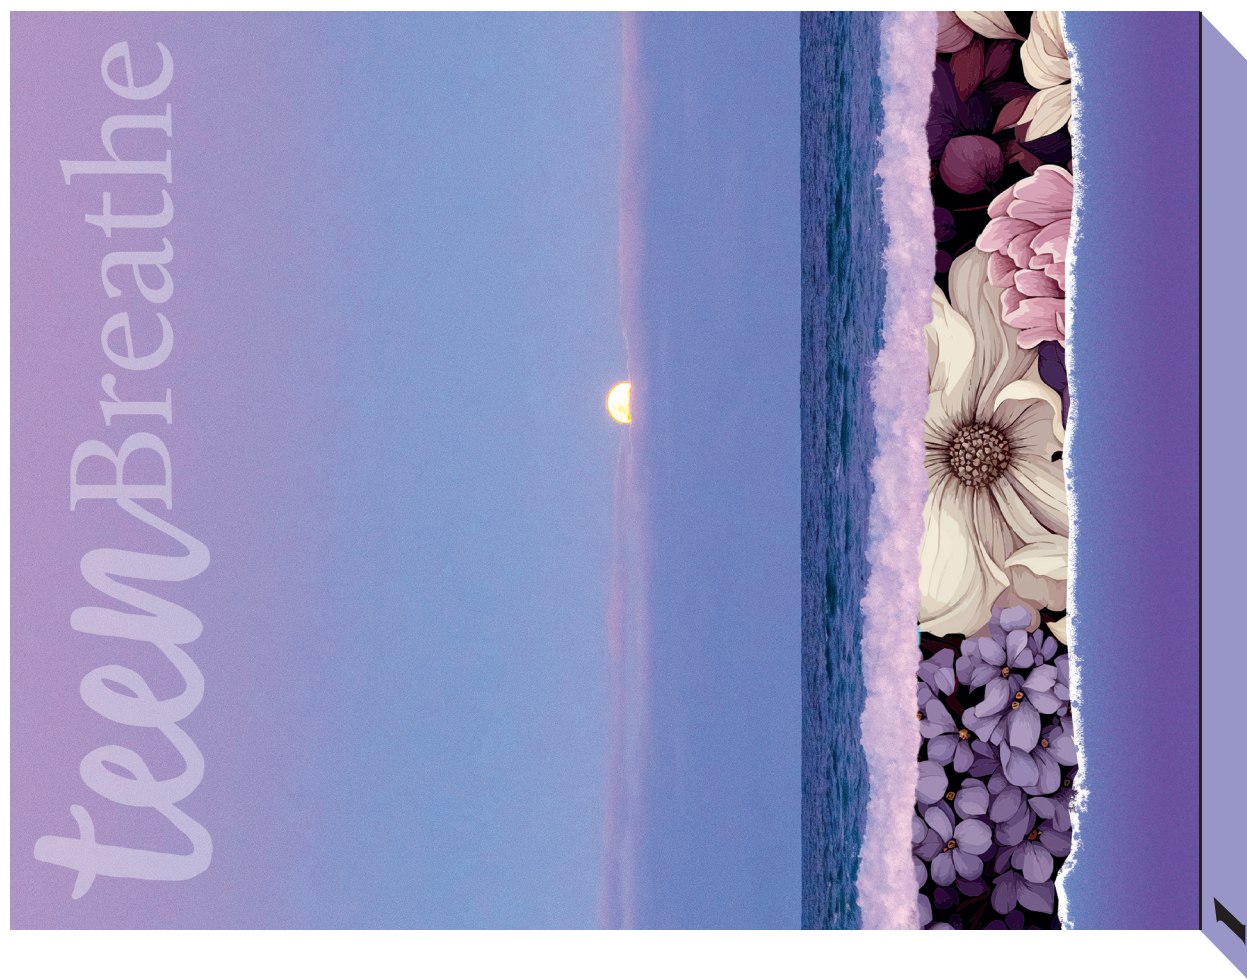

8cm

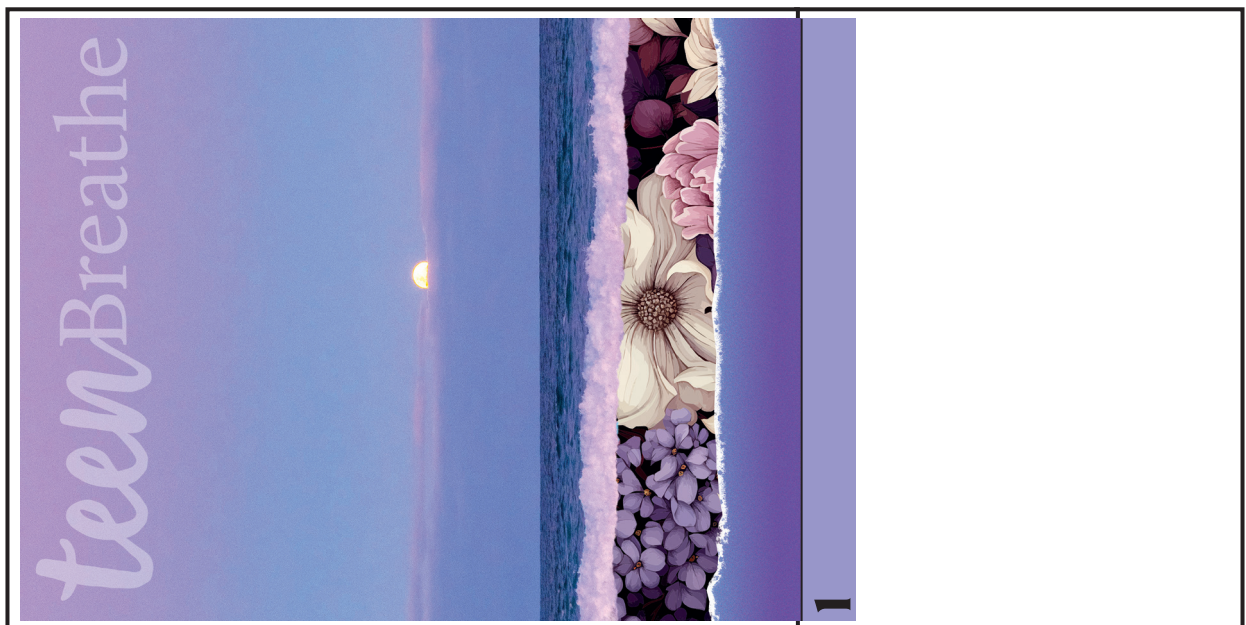

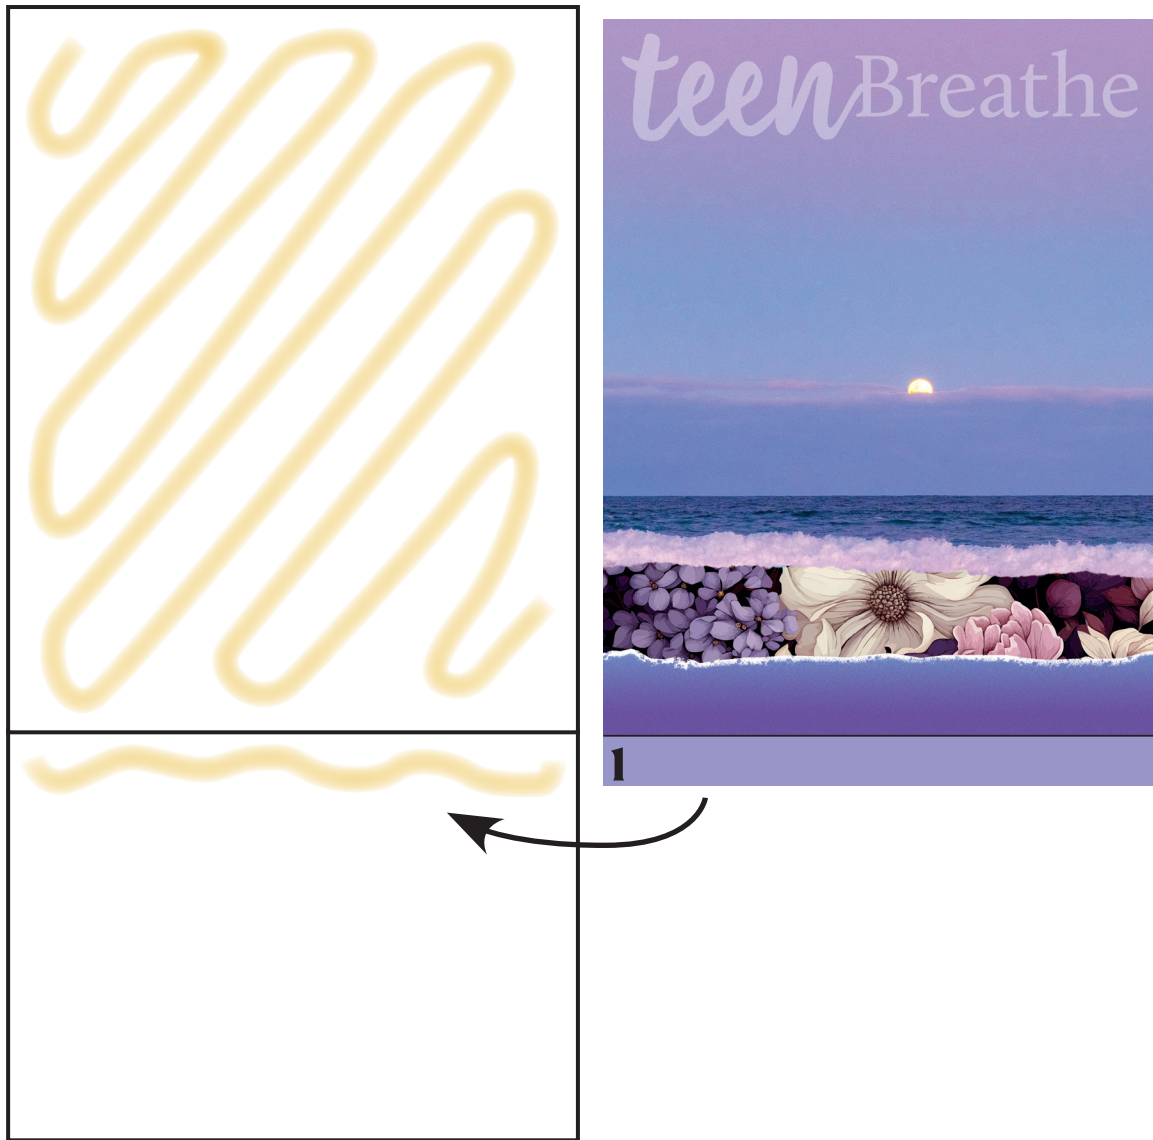

- 6** Taking the collage piece labeled 1, fold forwards along the dotted line.

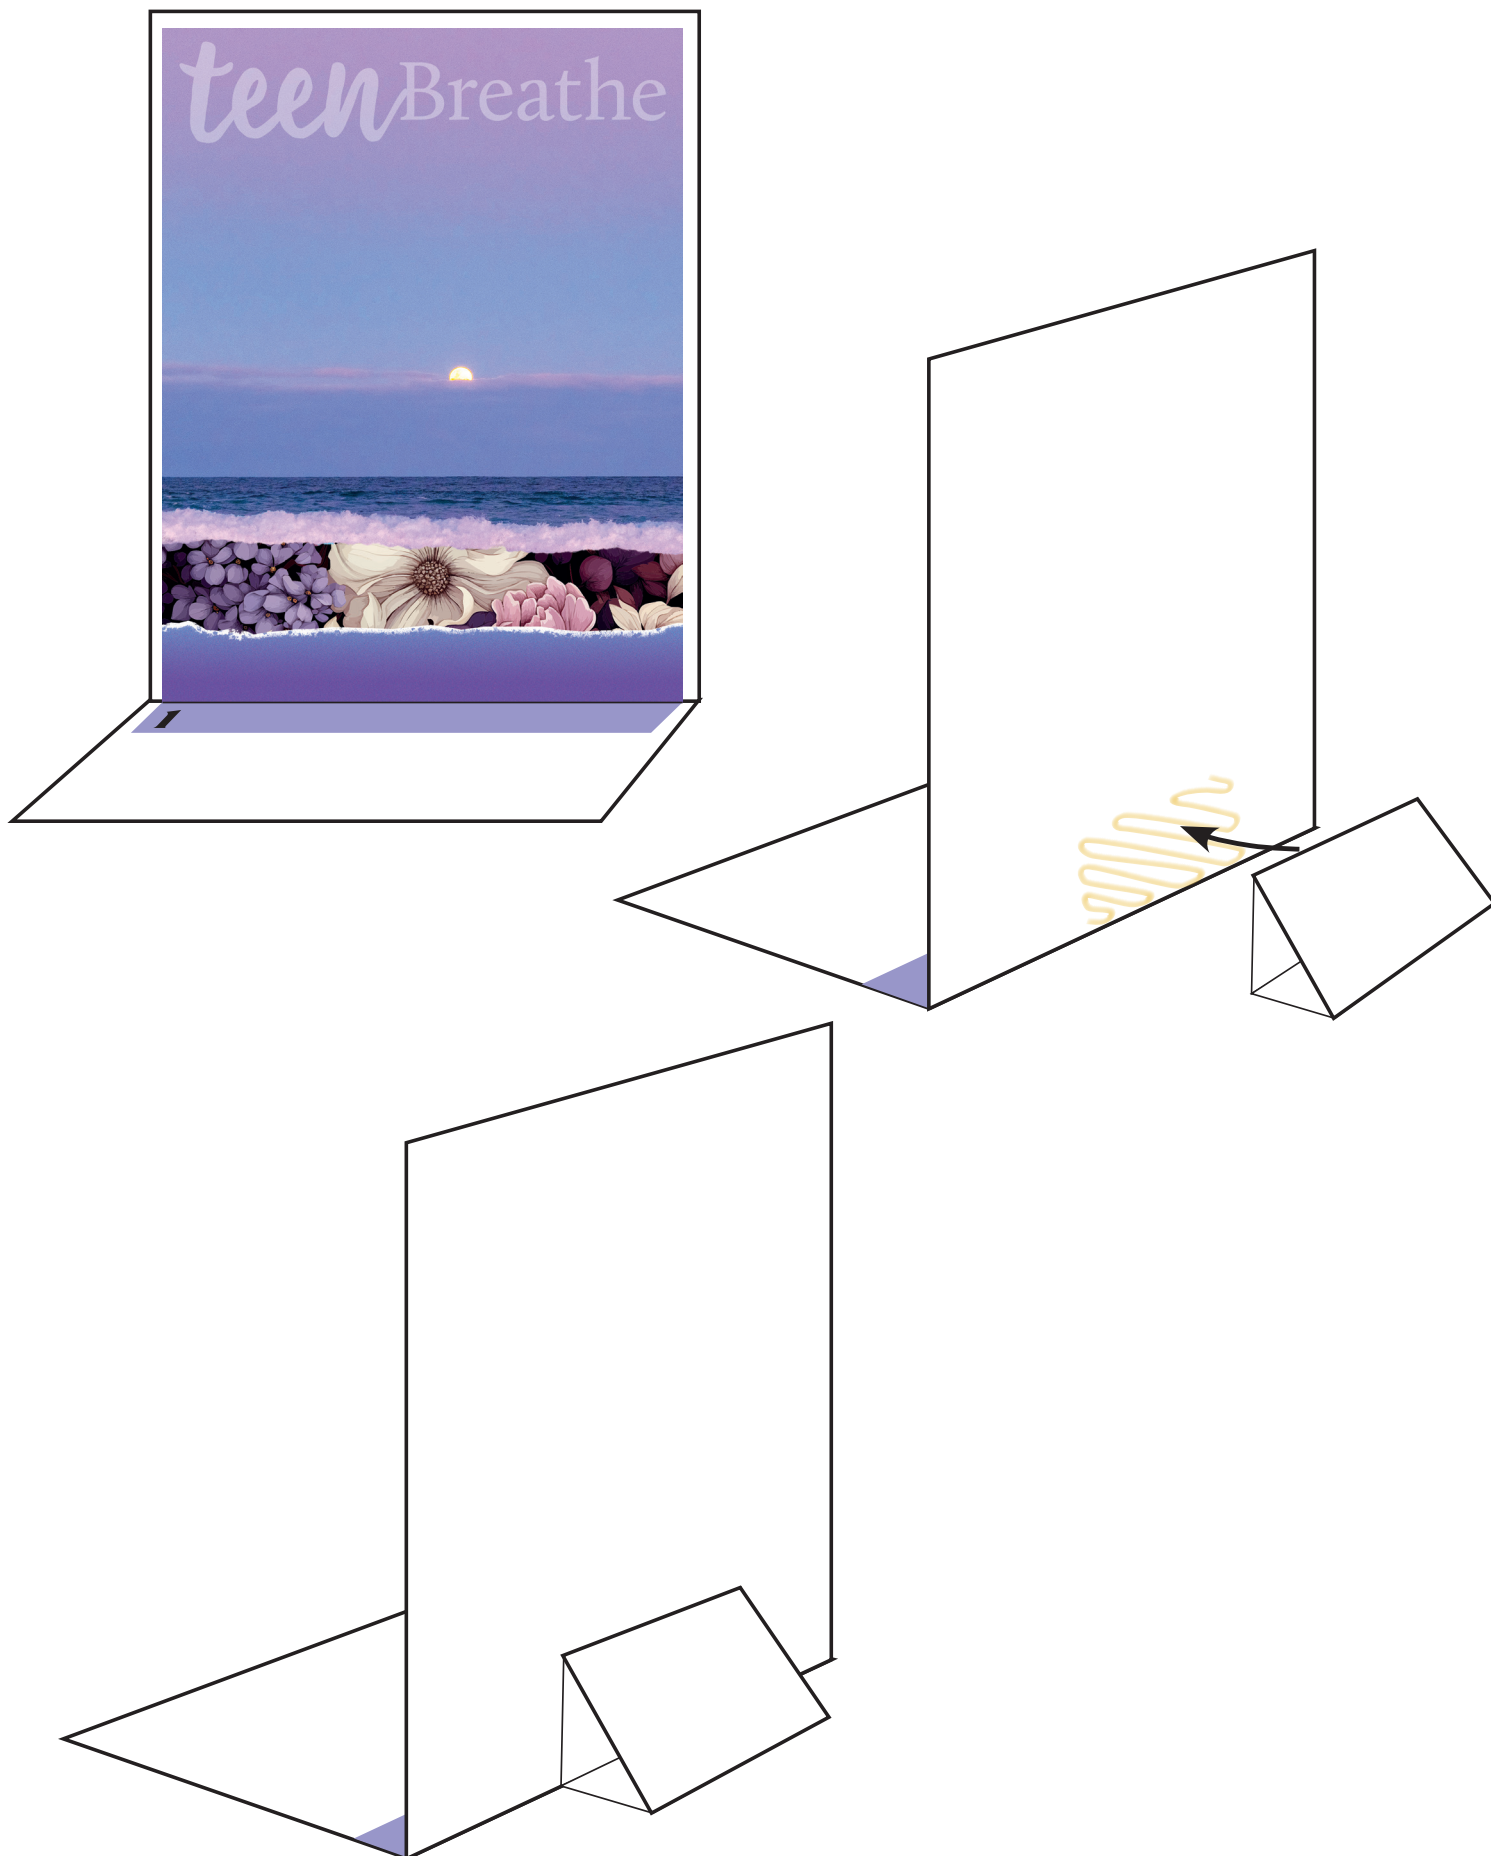

- 7** Line the fold of collage piece 1 with the fold you have made on the larger piece of card and glue these pieces together.

**8** Fold this piece into an L shape (along the drawn line/purple tab fold) and help prop this up by glueing one of the long sides of your triangular piece of card to the back at the base.

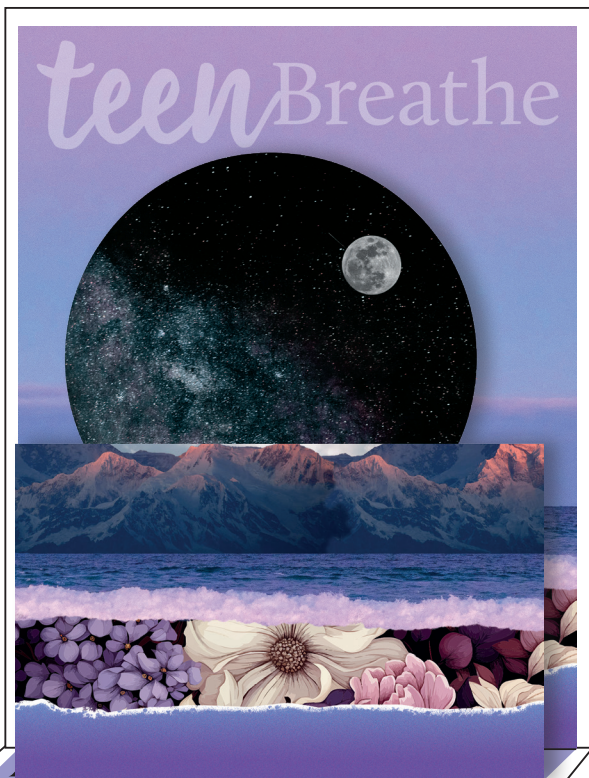

**9** Fold the purple tab of collage piece 2 backwards and glue this tab over the purple tab of piece 1.

**10** Fold the purple tab of piece 3 backwards and glue this tab down with the edge lining up with the crease of the fold of piece 2.

**11** Repeat step 9 with each collage piece in order until you have built all the layers of your 3D cover art.
